

Profile

Claudio E. P. Jordán Córdova

Investment Analyst

Background/Biography

Claudio Jordán is passionate for both technology and business. He holds a BSc. in Electronics and Communications Engineering from the Instituto Tecnológico y de Estudios Superiores de Monterrey (ITESM) and a MSc. in Sustainable Energy Technology from Technische Universiteit Eindhoven (TU/e); currently pursuing a Master of Advanced Studies in Management, Technology and Economics (MAS MTEC) from Eidgenössische Technische Hochschule Zürich (ETH).

Claudio has an associate role as an Investment Analyst within the core investment team of ABB Technology Ventures (ATV). He brings experience from business and sales operations. Before joining ATV, he spent most of the past decade embedded into the business; mainly within operations and project management within the grid automation industry. He has successfully executed power utility telecommunication projects and contributed to secure and develop markets across multiple regions such as Europe, Asia-Pacific, Africa, Latin America and the Middle East. Most recently, he was a Global Project Manager responsible for the Project Management Office (PMO) within the business line sales operations team with focus on growth initiative programs, process implementation, market intelligence and business analytics. He joined ABB back in 2012 incurring into corporate venture capital as part of the global trainee program in energy futures. Prior to ABB, he had the privilege to serve for a period as Secretary and Renewable Energy Advisor of the Renewable Energy Fostering Commission at the Honorable Oaxaca State Congress.

Location: ABB HQ, Zürich, Switzerland.
